The road from Trenton to Princeton is already built and thence to New York I havefive ways open, but do not care to disclose them."

Mr Johnson said it was the intention to charge 50 cents from Philadelphia to New York. There are to be no crossings at grade, and in the city there will be a three-cent fare. Thousands at Ex-Sheriff Molloy's Funeral. NEW ROCHELLE, N. Y., March 18 .- Five thousand people attended the funeral of former Sheriff William V. Molloy this morning former Sheriff Whitain V Molloy this morning in the Church of the Blessed Sacrament. Mr. Molloy was the official who called out the troops last spring to quiet the labor disturbances at Croton Dam. He was known as the Big Sheriff of Westchester county and was popular in nearly every household in New Rochelle. The funeral procession was the largest ever seen in this city.

Dallas, Tex., March 18 .- Judge Clint of the District Criminal Court, to-day took up the question of negroes serving on grand and pent juries in Dallas county. He said: "Negroes have as much right to serve under the law as any other race. I don't mean that a Grand Jury must be made up entirely of negroes or that any negroes are to be selected, but in selecting names no one should be excluded because he is a negro."

ANOTHER FABLE

CANARY bird which had spent all A CANARY bird which had spent all his life in a cage, on being given his freedom, refused to go out into the sunshine. In vain did his mates try to convince him of the beau-teous world outside. He would not even go out to learn whether they told the truth. At last he died in ignorance of the beautiful world he might have enjoyed. It is said there are those who still live in narrow block houses, and who have never even seen the beauties OF PROSPECT PARK SOUTH.

BUYING WATER TO DRINK.

Local Supplies of the Bottled Article Exhausted

There has been a slight improvement in the condition of the Croton water during the past two days, but in some parts of the city it is still too muddy for drinking. For bathing and general household needs it is used under protest. Uptown residents have been the greatest sufferers since the heavy rains a week ago when the discolored water was turned into the mains without having time to settle in the reservoirs. Discolored water is now flowing through the faucets downtown, but it seems to have settled somewhat in its progress through the mains and is clearer than residents above Fifty-ninth

street have seen in a week. The natural result has been an increased demand for distilled, plain spring and mineral waters, and the companies providing these have been reaping a harvest. Prices have gone up in some cases because the demand could not be met, and water has become as large an item in the household expense list as bread. Expense is not the only consideration. The early customer at the druggists or the grocers' catches, the water bottle, and many a late comer has had to go threstyfor water—until the supply could be replenished in the morning. This is especially true of Harlem, which is too far from the supply depots for late delivery.

For a day or two there has been a suspicious tings to the distilled water sent out under well known seals, the presumption being that the process of purification has been curtailed because of haste to meet the demands of the market. Home attempts at improving the water by boiling and straining have not been very successful.

Gradual improvement as the water settles is promised, but how long it will take for a return to normal conditions no one can tell, The natural result has been an increased
